

CASE STUDY

Critical Operating Room Renovations Delivered with **Limited Down Time**

Stryker selected KR Wolfe as their trusted partner for a fast-tracked renovation at Centennial Hills Hospital in Las Vegas, where two operating rooms required a complete iSuite® OR equipment installation within a seven-day timeline. With limited availability of qualified technicians in the region, Stryker relied on KR Wolfe to deliver a full installation, including equipment removal and replacement, medical gas re-certification, and strict Level 4 ICRA protocols.

Project Results

Improved Operational Efficiency

- ✔ Seamlessly delivered a full Stryker iSuite® integration, complete with booms, surgical lights, and infection-control compliance, empowering Centennial Hills to serve more patients while maintaining the highest safety standards.

Completed on Budget

- ✔ Delivered complete iSuite solution with zero budget overages.

Delivered on Schedule

- ✔ Both ORs were fully renovated, integrated, and ready for patient scheduling within the requested one-week window.

Infection Control Verified

- ✔ All infection control protocols met and verified, ensuring uninterrupted hospital operations and regulatory compliance.

Centennial Hills Hospital, a well-respected healthcare provider in Las Vegas, was gearing up to renovate two operating rooms on a fast-paced timeline. KR Wolfe was asked to successfully complete the two operating rooms using the Stryker iSuite solution within a week to minimize disruption of hospital operations.

Equipment Installation included

- Full Stryker iSuite installation
- Equipment removal and replacement
- Infection control – Level 4 compliance
- Medical gas re-certification

Challenges

- Eliminate OR downtime to maintain uninterrupted patient care and hospital operations.
- Maintain strict Level 4 infection control protocols throughout the renovation to protect patients, staff, and hospital operations.
- Re-certify medical gas system.
- Coordinate closely with hospital staff to maintain safety and minimize impact on surrounding operations.

Conclusion

For our client, this project ensured critical operating rooms were returned to service quickly, safely, and fully compliant. KR Wolfe helped support a safe patient environment, demonstrating the value of a trusted partner when timelines are tight and performance matters most.

“I wanted to take a moment to highlight the incredible work Jason and Sam did on our Centennial Hills project, which wrapped up yesterday. From start to finish, their attention to detail, professionalism, and commitment to quality were truly exceptional.

Although most of our projects in Las Vegas involve OR Renovations, this was one of my first projects with KR Wolfe – and I couldn’t be more impressed. Jason and Sam brought a level of expertise and work ethic that’s among the best I’ve seen.

“I’ll absolutely be requesting KR Wolfe for future projects.”
